PROJECTS

APPLE WEBSITE CLONE

DEVMOUNTAIN | JULY 2016 - JULY 2016

- I cloned the front-end of the Apple website, which is one of the most visited sites in the world.
- Built using HTML, CSS, Javascript, and jQuery.

QUENCHUA WEBSITE CLONE

DEVMOUNTAIN | AUG 2016 - AUG 2016

- I cloned this site because it emphasizes my front end strengths. This site has amazing parallax.
- Built using Javascript, jQuery, ExpressJS, NodeJS, and PostgreSQL.

PORTFOL.IO

DEVMOUNTAIN | SEP 2016 - SEP 2016

- I worked with a group to create a site for customers to find professional photographers for any type of special event.
- I focused on the backend for this project using ExpressJS, NodeJS, and PostgreSQL.
